

AMENDMENTS IN THE CLAIMS

Please cancel Claims 12 and 48 and amend Claims 1, 7, 13, 16, 20, 26, 30, 34, 35, 38, 41, 58-60, and 65 as follows:

1. (CURRENTLY AMENDED) A licensing method for an electronic file ~~between a server, a first client, and a second client~~, comprising the steps of:

(o) requesting the electronic file, transferring the electronic file to ~~[[the]]~~ a first client, and allowing an initial set of permissible actions with the electronic file regardless of a connection between the first client and the server, wherein the first client is a computer device;

(1) requesting a license from ~~[[the]]~~ a server, transferring a first license to the first client, and allowing a first set of licensed actions by the first client with the transferred electronic file based on the first license regardless of a connection between the first client and the server, wherein the first set of licensed actions is less restrictive than the initial set of permissible actions; and

(2) upon the occurrence of ~~[[an]]~~ a license event, requesting a license from the server and modifying the first license.

2-6. (CANCELLED).

7. (CURRENTLY AMENDED) The licensing method of Claim ~~[[1]]~~ 8, wherein step (1) further includes requesting a license from the server upon the receipt of the electronic file.

8. (PREVIOUSLY PRESENTED) The licensing method of Claim 1, wherein step (1) further includes receiving a license request from the first client and generating a first license based on an attribute of the first client.

9-12. (CANCELLED).

13. (CURRENTLY AMENDED) The licensing method of Claim [[1]] Z, wherein the event is a transfer of the file from the first client to [[the]] a second client, and wherein step (2) further includes requesting a dummy file upon the transfer of the file from the first client to the second client, and receiving the dummy file and requesting a license from the server upon the receipt of the dummy file.

14-15. (CANCELLED).

16. (CURRENTLY AMENDED) The licensing method of Claim [[1]] Z, wherein step (2) further includes receiving a license request from the first client, and transferring an empty license to the first client and, upon receipt of an empty license from the server, allowing an initial set of permissible actions with the electronic file, regardless of a connection between the first client and the server, wherein the initial set of permissible actions is more restrictive than the first set of licensed actions.

17-19. (CANCELLED)

20. (CURRENTLY AMENDED) The licensing method of Claim [[1]] Z, wherein step (2) further includes receiving a license request from the first client, wherein step (2) further includes transferring a modified license to the first client and, upon receipt of the modified license from the server, allowing a modified set of licensed actions with the electronic file, wherein the modified set of licensed actions is more restrictive than the first set of licensed actions.

21. (CANCELLED)

22. (ORIGINAL) The licensing method of Claim 20, wherein step (2) further includes allowing a modified set of licensed actions regardless of a connection between the first client and the server.

23. (PREVIOUSLY PRESENTED) The licensing method of Claim 1, further comprising the step of:

(3) receiving a license request from the second client and transferring a second license to the second client that allows a second set of licensed actions with the electronic file, and generating a second license based on an attribute of the second client, wherein the second set of licensed actions is substantially similar to the first set of licensed actions.

24-25. (CANCELLED).

26. (CURRENTLY AMENDED) A licensing method for an electronic file between a server, a first client, and a second client, comprising the steps of:

(1) transferring a first license to the first client that allows a first set of licensed actions on the first client with the electronic file, wherein the first client is a computer device;

(2) upon a transfer of the file from the first client to the second client, modifying the first license, wherein the second client is a computer device; and

(3) transferring a second license to the second client that allows a second set of licensed actions on the second client with the electronic file.

27. (ORIGINAL) The licensing method of Claim 26, further comprising the step of:

(o) transferring the electronic file to the first client.

28-29. (CANCELLED).

30. (CURRENTLY AMENDED) The licensing method of Claim [[26]] 27, wherein step (1) further includes receiving a license request from the first client, and generating a first license based on an attribute of the first client.

31-33. (CANCELED).

34. (CURRENTLY AMENDED) The licensing method of Claim [[26]] 30, wherein step (2) further includes receiving a license request from the first client, and transferring a modified license to the first client that replaces the first license and allows a modified set of licensed actions with the electronic file, wherein the modified set of licensed actions is more restrictive than the first set of licensed actions.

35. (CURRENTLY AMENDED) The licensing method of Claim [[26]] 30, wherein step (2) further includes receiving a license request from the first client, and transferring an empty license to the first client.

36-37. (CANCELED).

38. (CURRENTLY AMENDED) The licensing method of Claim [[26]] 30, wherein step (3) further includes receiving a license request from the second client, generating a second license based on an attribute of the second client, wherein the second set of licensed actions is substantially similar to the first set of licensed actions.

39-40. (CANCELED).

41. (CURRENTLY AMENDED) A licensing method for an electronic file between a server, a first client, and a second client, comprising the steps of:

(0) requesting the electronic file, receiving the electronic file, and allowing an initial set of permissible actions on the first client with the electronic file, regardless of a connection between the first client and the server;

(1) requesting a license from the server, receiving a first license from the server, and allowing a first set of licensed actions on the first client with the electronic file based on the first license regardless of a connection between the first client and the server wherein the first set of licensed actions is less restrictive than the initial set of permissible actions; and

(2) upon the occurrence of [[an]] a license event, requesting a license from the server.

42-46. (CANCELLED).

47. (PREVIOUSLY PRESENTED) The licensing method of Claim 41, wherein step (1) further includes requesting a license from the server upon the receipt of the electronic file.

48. (CANCELLED)

49. (PREVIOUSLY PRESENTED) The licensing method of Claim 41, wherein the event is a transfer of the file from the first client to the second client, requesting a dummy file upon the transfer of the file from the first client to the second client, and receiving the dummy file and requesting a license from the server upon the receipt of the dummy file.

50-51. (CANCELLED).

52. (PREVIOUSLY PRESENTED) The licensing method of Claim 41, wherein step (2) further includes receiving an empty license from the server and, based on the empty license, allowing an initial set of permissible actions with the electronic file, and allowing an initial set of permissible actions regardless of a connection between the first client and the server, wherein the initial set of permissible actions is more restrictive than the first set of licensed actions.

53-54. (CANCELLED).

55. (PREVIOUSLY PRESENTED) The licensing method of 41, wherein step (2) further includes receiving a modified license from the server and, based on the modified license, allowing a modified set of licensed actions with the electronic file, and allowing a modified set of licensed actions regardless of a connection between the first client and the server, wherein the modified set of licensed actions is more restrictive than the first set of licensed actions.

56-57. (CANCELLED).

58. (CURRENTLY AMENDED) The licensing method of Claim [[26]] 30, wherein modifying the first license includes updating a license for a purchase.

59. (CURRENTLY AMENDED) The licensing method of Claim [[26]] 30, wherein modifying the first license includes updating a license for a complaint.

60. (CURRENTLY AMENDED) The licensing method of Claim [[26]] 30, wherein modifying the first license includes revoking the license of the first client.

61. (PREVIOUSLY PRESENTED) The licensing method of Claim 58, further comprising the step of:

(o) transferring the electronic file to the first client.

62. (PREVIOUSLY PRESENTED) The licensing method of Claim 61, further comprising the step of:

(4) opening the electronic file on the second client.

63. (PREVIOUSLY PRESENTED) The licensing method of Claim 61, further comprising the step of:

(4) printing the electronic file from the second client.

64. (PREVIOUSLY PRESENTED) The licensing method of Claim 59, further comprising the step of:

(4) deleting the electronic file from the first client.

65. (CURRENTLY AMENDED) The licensing method of Claim [[26]] 30, wherein modifying the first license includes revoking the license of the first client upon user request.

66. (PREVIOUSLY PRESENTED) The licensing method of Claim 65, wherein modifying

the first license includes revoking the license of the first client upon user request to enable the transfer of a second license to the second client.

67. (PREVIOUSLY PRESENTED) The licensing method of Claim 65, wherein modifying the first license includes revoking the license of the first client upon user request to enable the creation of a second license for the second client.
